STOP 2: HAMMER'D & TONI KINGSTONE

88 Strong Road, Te Pahu
(off Limeworks Loop Road)

Parking will be clearly marked on arrival.

Greg from Hammer'd will be talking to visitors about the forging process, tools and techniques used, and the differing types of steel required to create his knives and sculptures. He will also have a small variety of forge work on display during the open studio tour, with some pieces available for purchase.

Toni Kingstone's acrylic and resin paintings take around three weeks to create from start to finish. To enable visitors to experience her process, she will have a variety of work on display at various stages of completion, along with the tools and mediums that she works with. There will also be a range of finished work available to view or purchase.
